The Meeting listened to Mr. Le Song Lai – Chairman of the Board of Directors of the Corporation, presenting:

6.1. Proposal No. 474/TTr-VNS dated April 26, 2025 of the Board of Directors of the Corporation regarding the approval of the development strategy of Vietnam Steel Corporation to 2030 with a vision toward 2035 (attached document);

6.2. The Regulation on the election of members of the Board of Directors of Vietnam Steel Corporation for the 2021–2026 term.

IV. SHAREHOLDERS' DISCUSSION

1. Shareholder Code No. 0051

a. Question 1: According to forecasts, the current tariff policy will make competition in the domestic steel market more intense. In this context, what business strategy does VNS have to operate effectively in the domestic market?

Mr. Nghiem Xuan Da – Board Member, CEO of the Corporation answers:

Under the impact of the current tariff policy, there is a high possibility that steel products will shift to markets in ASEAN, the Middle East, and Africa, which will indirectly reduce the competitive pressure on the domestic market.

In 2024, the Corporation's consumption volume increased by 20% compared to 2023. To adapt to the changing market context due to the current tariff policy, VNS's strategy is:

Increase production volume;

Reduce costs;

Expand access to other markets such as the Middle East, Africa...

b. Question 2: How will the Corporation's decision not to distribute dividends to focus on investment affect VNS's competitiveness?

Mr. Nghiem Xuan Da – Board Member, CEO of the Corporation answers:

Most of the Corporation's steel plants have been in operation for over 20 years. Due to the lack of new investment projects in recent years, the Corporation's production capacity has not changed significantly.

To enhance competitiveness, VNS needs to focus on increasing production capacity through new investment projects, equity contributions, and mergers and acquisitions...

c. Question 3: Recently, the Corporation's divestment from Vicasa led to a sharp increase in Vicasa's stock price. However, VNS later announced halting the divestment. Could you please explain the reason?

Mr. Nghiem Xuan Da – Board Member, CEO of the Corporation answers:

The Corporation's divestment from Vicasa was carried out in accordance with the legal procedures, Securities Law, and the Corporation's restructuring plan.

The increase in the Corporation's stock value was due to the effects of the stock market.

The halt in divestment was in response to the SCIC's request to review land management at enterprises where the Corporation holds shares.

d. Question 4: Why was the pre-tax profit target in the AGM documents increased by 100 billion VND (from 180 billion VND to 280 billion VND)? How will this target be achieved?

Mr. Nghiem Xuan Da – Board Member, CEO of the Corporation answers:

The adjustment of the consolidated pre-tax profit target is a challenging task, driven by the request of the major shareholder SCIC and in line with the Government's directive to maintain economic growth. To achieve this goal, the Corporation has urgently reviewed all units in the system to increase profit targets for each unit, while focusing efforts to improve business performance for struggling units like Tisco, Vinapipe, VKS... and quickly restore operations at VTM.

e. Question 5: What solutions are in place to remove TVN stock from the warning list? What are the plans for TVN stock to move to another exchange?

Mr. Nghiem Xuan Da – Board Member, CEO of the Corporation answers:

The Corporation's stock was placed on the warning list due to the VNS financial reports being excluded by the auditor for two reasons:

The Corporation's privatization settlement has not been completed after nearly 15 years of IPO. The solution is for the Corporation to continue requesting the Ministry of Industry and Trade to speed up and officially approve the privatization settlement, aiming to complete this process by 2025.

Under the Government's directive, the Tisco 2 project is currently in the process of resolution, and the outcome depends on the chosen method of resolution, with the goal of completing the resolution of the Tisco 2 project in 2025.

f. Question 6: How do you evaluate the possibility of the Corporation losing its status as a public company?

Mr. Le Song Lai - Chairman of the Board answers:

According to the Securities Law, the Corporation currently does not meet the conditions to maintain its status as a public company due to failing to meet the requirement for the minimum number of shares owned by small investors.

To resolve this situation, the Corporation will soon report and seek the opinion of the major shareholder (SCIC), which currently holds approximately 94% of VNS's charter capital.

If there is no solution to reduce the state ownership ratio to at least 90%, the Corporation is likely to move from the Upcom exchange as per the regulations.

2. Shareholder Code No.

2.1. Question 1: Could the CEO share the solutions to reduce losses at some companies in the Corporation's system?

Mr. Nghiem Xuan Da – Board Member, CEO of the Corporation answers:

Currently, there are two units with large losses due to several reasons, specifically: VTM has been inactive for three years, and the Corporation has set up provisions for the entire investment in VTM. However, the company will soon resume stable and sustainable production. On April 26, 2025, VTM officially restarted production, and within a few days, it will produce its first batch of pig iron after three years of inactivity. The recovery of VTM's production is a top priority for all VTM joint-venture partners, including the Corporation, to improve the overall effectiveness of the Corporation's system.

VKS is gradually reducing its losses. The Corporation will continue working with the joint-venture partner to implement decisive measures to eliminate losses and move towards eliminating accumulated losses and achieving profitability soon.

2.2. Question 2: In the context of many companies slimming down their operations, what will the Corporation do to respond to this trend?

Mr. Nghiem Xuan Da - Board Member, CEO of the Corporation answers:

Early on, the Corporation proactively instructed the review of the organizational structure of its units and the parent company to adjust in a streamlined and effective direction. This includes consolidating departments and divisions with similar functions and tasks to improve operational efficiency, reduce costs, and

enhance business performance. Specifically, at Tisco, the workforce has been reduced by more than 2,000 people in the last 5 years.

3. Shareholder Code No. 66

3.1. Question 1: Could you please explain how Chinese steel has entered the Vietnamese market in the past three months?

Mr. Nghiem Xuan Da - Board Member, CEO of the Corporation answers:

Recently, Vietnam has imported a significant amount of hot-rolled coil steel from China. As a result, the Ministry of Industry and Trade has imposed tariffs on hot-rolled coil steel from China to protect domestic production.

Domestic enterprises are currently collecting documentation and evidence to report the tax evasion activities of Chinese producers to the Trade Defense Department to prevent tax evasion by Chinese steel exports to Vietnam.

The general solution is to petition the authorities to increase inspections and supervision to protect domestic production and prevent tax evasion by foreign exporters to Vietnam.

V. VOTING RESULTS FOR THE APPROVAL OF THE AGENDA

The General Meeting listened to Mr. Nguyen Van Thuan - Head of the Personnel Organization Committee - Head of the Vote Counting Committee present the Minutes of the vote counting and voting on the contents of the reports and proposals at the General Meeting.

- Total number of voting shares issued: 62 votes, representing 642,113,286 voting shares, accounting for 100% of the voting shares participating in the General Meeting.

- Total number of voting shares collected: 62 votes, representing 642,113,286 voting shares, accounting for 100% of the voting shares participating in the General Meeting.

- Total number of votes not collected: votes, representing voting shares, accounting for% of voting shares attending the General Meeting;

The specific results are as follows:

1. Approval of Report No. 475/BC-VNS dated April 26, 2025, from the Board of Directors of the Corporation at the 2025 Annual General Meeting, with Approval rate of 642,113,286 shares, representing 100% of the voting shares attending the meeting.
