**30 . EQUITIZATION ISSUES**

The Corporation has operated as a joint-stock company since 01 October 2011. The Corporation has completed the equitization finalization dossier and submitted it to the Ministry of Industry and Trade for appraisal. The Government has assigned related agencies to instruct the equitization of the Corporation, specifically as follows:

- On 03 January 2019, the Corporation issued Official Letter No. 07/VNS-QLDT to the Ministry of Industry and Trade regarding the proposed solution of land value in the equitization settlement value. These issues have been related to the land plots which the Corporation has been renting with annual rental payment. The Corporation has temporarily calculated the value of these land-use rights into the enterprise value when equitizing (increasing the value of land use rights and liabilities to the State budget), and has not increased the State capital.

- On 1 July 2019, the Ministry of Finance issued official dispatch No. 7547/BTC-TCDN to the State Capital Investment and Trading Corporation and Vietnam Steel Corporation - Joint Stock Company regarding the amount payable by the Corporation for the Enterprise Arrangement and Development Support Fund as well as late payment interest according to regulations.

- On 01 September 2020, the Government Office issued Official Letter No. 7270/VPCP-DMDN announcing the direction of Permanent Deputy Prime Minister Truong Hoa Binh on the equitization finalization of Vietnam Steel Corporation - JSC (VNSTEEL). The Government assigned the Ministry of Finance to coordinate with relevant agencies to instruct the equitization finalization of the Corporation. In cases beyond competence, the Ministry of Finance has the responsibility to report to the Prime Minister for decision.

- On 23 June 2021, the Ministry of Finance issued Official Letter No. 6749/BTC-TCDN to the Prime Minister, proposing a plan to handle problems related to land problems of the Corporation, in which, the Ministry of Finance Report to the Prime Minister the plan to handle problems when finalizing the equitization of the Corporation as follows:

1. For the value of geographical location advantage of the land area with the decision to withdraw from the local authority after the time VNSTEEL officially changes to a joint stock company:

- The land area at 67 Ngo Quyen, May Chai ward, Ngo Quyen District, Hai Phong city has the advantage of geographical location which is included in the enterprise value, and an increase in the state capital at the enterprise is recorded when equitization is VND 24,052,770,000;

- The land area No. 303 Le Hong Phong, Phuoc Hai Ward, Nha Trang city, the value of geographical location advantage is included in the value of the enterprise, and an increase in the state capital at the enterprise when equitized is VND 16,539,705,000;

- The land area at Binh Tan warehouse, Binh Tan ward, Nha Trang city has the advantage of geographical location which is included in the enterprise value, and at the same time recorded an increase in the state capital at the enterprise when equitization is VND 17,559,450,000;

- The land area at No. 435 Gia Phu, Ward 3, District 6, Ho Chi Minh City has the advantage of geographical location which is included in the enterprise value, and an increase in the state capital in the enterprise when equitizing is VND 21,218,406,000 (the Corporation has transferred the management of Southern Steel Company Limited - Note 33);

The Ministry of Finance shall report to the Prime Minister the handling plan as follows:

+ The representative of State capital report to the General Meeting of Shareholders for consideration and decision to account for accounting expenses (not deductible when determining taxable income) for the value of geographical location advantage included in the enterprise value upon equitization of these land plots. The annual allocation does not lead to a loss in production and business results for the Corporation.

+ The Capital Management Committee directs SCIC to request the State Capital Representative at the Corporation to vote on this content at the General Meeting of Shareholders.

2. For the land area in the North Urban Area, Nguyen Du ward, Ha Tinh city, the value of land use rights shall be calculated when determining the value of the enterprise for equitization, and there is a decision on land recovery issued by the local authority occurring in the period from the time of enterprise valuation to the time when VNSTEEL officially transforms into a joint-stock company:

The value of land use rights has been included in the enterprise value, and the value of State capital at VNSTEEL is recorded as an increase of VND 109,834,560,000 when determining the enterprise value (Note 12).

The Ministry of Finance reports to the Prime Minister the handling plan as follows:

The Ministry of Industry and Trade/SCIC inspect, determine and clarify the subjective/objective causes of the land acquisition; clearly determine the amount to be compensated for property on land; determine collective and individual responsibilities to report to the Prime Minister for consideration according to the provisions of Clause 4, Article 21 of Decree 59/2011ND-CP. The proposed plan is for the Corporation to be compensated for losses (reducing state capital) by deducting the interest on late payment of money collected to the Corporation's Fund according to the conclusion of the State Audit. In case the value of land use rights allowed by the Prime Minister to be deducted from the interest payable on equitization is not enough, the Prime Minister is requested to allow the deduction to be further deducted from the amount the Corporation still has to pay to the Fund.

3. Land at 141 Phan Chu Trinh, Ward 2, Vung Tau City

The land has 2 plots as follows:

- Plot 3a: The area of 863 m<sup>2</sup> received from Mr. Do Quang Canh (residential land) in the sale contract dated September 22, 1992; VNSTEEL has fulfilled its financial obligations for the land transfer; the land use value right to be included in the State's capital value upon equitization is VND 27,098,200,000 (Note 12);

- Plot 3b: The remaining area is used according to the state plan to lease land with annual rental payment, the usable area is 2,816.1 m<sup>2</sup>; the value of geographical location advantage that is included in the value of state capital upon equitization is VND 27,316,170,000.

On 10 September 2014, the People's Committee of Ba Ria - Vung Tau province decided to acquire both land plots on the basis of the actual measured area and continue to sublease the entire land to VNSTEEL as the Phuong Nam hotel.

Solution of the Ministry of Finance:

- Plot 3a: The Ministry of Finance reports to the Prime Minister to direct the People's Committee of Ba Ria - Vung Tau province to handle according to the provisions of the Land Law.

- Plot 3b: For the remaining area with an area of 2,816.1 m<sup>2</sup> (the value of geographical location advantage is included in the value of state capital when equitization is VND 27,316,170,000), similar to other lands of VNSTEEL has calculated the value of geographical advantage upon equitization (including Area B (position 1), a land lot at 120 Hoang Quoc Viet - Cau Giay District - Hanoi: VND 114,914,019,600; Land lot at 221 Tran Van Kieu, Ward 1, District 6, Ho Chi Minh City: VND 9,990,776,800; land plot at 337 Hong Bang (now An Duong Vuong), Ward 11, District 5, Ho Chi Minh City: VND 14,536,599,044; Land lot in Phu My I Industrial Park, Phu My Town, Tan Thanh District, Ba Ria - Vung Tau: VND 28,332,635,316). The processing of the geolocation advantage value is as follows:

For the land in piece 3b:

+ The representative of State capital at the Corporation shall report to the General Meeting of Shareholders to consider the allocation of the remaining value of the geographical location advantage of the leased land to the cost of calculating corporate income tax within a maximum period of time no more than 3 years from 30 November 2020. The annual allocation does not lead to a loss in production and business results for the Corporation.

+ After 03 years, the Corporation will continue to allocate to expenses the remaining value (if any) and not be deducted when determining taxable income. The Corporation is obliged to pay land rent in accordance with the provisions of the law on land.
